Doug Cullen

Extended Learning Coordinator of the Year

The 30th Annual New Hampshire Excellence in Education Awards recognize New Hampshire schools and individuals who meet high standards of excellence. The criteria used in selecting outstanding individuals to be honored are determined by their sponsoring organizations.

About

Doug Cullen was selected as the NH ELO Network Coordinator of the Year award recipient for his long time work in creating novel learning options for students. In particular, and especially in the last year, Doug has worked to advance extended learning at Pinkerton. As stated by one of Doug's support letters "I have seen first-hand how extensively he reaches out to the business world on behalf of students. Whether organizing networking opportunities through reverse career fairs, facilitating applied academic events, building connections to foster on-the-job opportunities and apprenticeships, and more, Doug has made it a point to keep up with local and state-wide businesses and industry professionals to ensure that Pinkerton is providing the most relevant education possible for its students."
