About

Christina DiMicelli of Pinkerton Academy has been honored with the NHSTE Susan Janosz Technology Impact Award, a testament to her exceptional leadership in the field of educational technology. As the Director of EdTech Learning & Growth at Pinkerton, Christina provides the critical link between technology and learning.

Holding a wide array of professional certifications, Christina has been instrumental in advancing the technological competence of educators through her dynamic workshops. Her recent focus on generative AI applications demonstrates her commitment to keeping the educational community at the forefront of technological innovation. As the NHSTE Professional Learning Chair, Christina extends her impact beyond Pinkerton Academy, enriching the professional lives of educators across New Hampshire by providing resources and innovative ideas. Her expertise makes her a sought-after speaker and a respected authority in educational technology, both locally and globally.
